

Heian Nidan

Heian Nidan, the second *Heian* kata, has 26 movements and the *embusen* is almost I-shaped. Half of the kata is performed in *kokutsu-dachi* (back stance). *Shuto-uke* (knife-hand block) appears seven times, making it a very important technique for this kata. H2 is the first kata that teaches kicks and double-hand movements. Also, *gyaku hanmi*, reversing the torso's position, is first learned in H2. Pay special attention to the *keage/uraken* (side snap kick/back-fist) combination, as it appears in several other kata.
